

It Is About Time

OTTAWA STUDIES EROSION
ON LAKE ONTARIO SHORE

Ottawa, Aug. 13.—Works Minister Fournier today told the Commons his Department was making a serious study of the problem of erosion which has been eating away the shorelines of Canadian lakes and rivers, but said that if the Government did undertake to direct protective works, they would run into "millions upon millions of dollars."

Piloting his Departmental estimates through committee, Mr. Fournier said the Government took responsibility for erosion damage only when it had been caused by some work or act of the Government. In cases of natural causes, the damage was not generally accepted as a Federal problem and was left to Provincial or municipal authorities.

"However," he added, "as time

goes on, we are making a serious study in the hope that we will have an amount of money to relieve the most pressing cases, or to conduct works at points where the most damage has been done by erosion."

"If we ever did undertake them, we should have to spend millions upon millions of dollars on works which, up to now, have never been recognized as our responsibility."

The Minister spoke after Gordon Graydon (P.C., Peel) drew attention to erosion along the shores of Lake Ontario and said the feeling among his constituents was that it resulted from artificial diversion or change made at points nearer the headwaters.

The condition had reached "serious proportions and many residents found that those parts of their

Issues A Warning

AT PRESENT LINCOLN COUNTY
IS FREE OF POLIOMYELITIS

But Mothers Should Be Constantly On The Watch During Summer Months For Early Symptoms Of Polio—Call A Physician At Once.

(By Dr. J. M. Mather, Lincoln Health Unit)

Poliomyelitis, often misnamed "infantile paralysis" is one of the most feared diseases especially at this time of year. This disease is caused by a virus so small that the ordinary microscope will not identify it.

The symptoms of this disease vary from most severe and even fatal cases, to those so mild that a proper diagnosis may be impossible. These two types have been called paralytic and abortive respectively. It has been estimated that the chances of a child, under ten years of age, having even slight paralysis are about one in six thousand. In Ontario recently a survey of crippled persons showed that less than twenty per cent was due to polio.

In the past it is thought that many cases diagnosed as "summer flu" have really been the abortive type of poliomyelitis, because the symptoms are comparatively mild with sore throat, head cold, nausea, vomiting and fever. There may be abdominal pain with loss of appetite. Frequently there is a striking degree of fatigue with apprehensions out of all proportion to the

Grand Lady Passes

PROMINENT GRIMSBY CITIZEN
REMOVED BY GRIM REAPERGoes To England
For Experience

Kenneth G. Harris Believes He Can Learn More In Old Land Than Here At Home.

There called from New York, for England, on Tuesday, a young Canadian who believes that he can gain more real experience in the Old Land, at his chosen trade, in one year than he can in Canada in a considerably longer period of time, and that when he returns to follow his profession in Canada he will be far more fitted for his work.

The young man is Kenneth George Harris, of Beamsville, youngest son of Charlie Harris of that village.

Ken served in the army overseas for five years with the R.C.A.B.C. (Continued on page 8)

Mrs. Bessie K. Moore Summoned Home On Friday Morning Last—Came To Grimsby 36 Years Ago—Operated Moore's Theatre 27 Years.

Grimsby and the district suffered a severe loss on Friday morning last when Bessie Kinsey Moore, widow of the late Albert W. Moore, passed peacefully away to her Maker.

Her demise did not come as a great shock to her intimate friends and close business associates, because the lady had been in poor health for some months, but it did come as a shock to the general public of the whole district.

In the Spring of 1910 there came to Grimsby Beach, at that time being recovered by the late H. H. Wyllie, Albert W. and Mrs. Moore and their two little cherubs, Elma and "Buddy", to operate the first moving picture theatre in the Niagara Peninsula. That Autumn the family moved into Grimsby. At that time the silent moving picture film was beginning its great wave of popularity. The late "A. W." greatly aided by his good wife put on shows the winter of 1911 in the Old Town Hall, that stood where the Public Library now stands.

In the Spring of 1911 the Old Town Hall was sold and torn down to make way for the new library (it is now part of the Grimsby Stove and Foundry Co. building.)

That Fall, after having operated at the Beach again, "A. W." opened up his moving picture show in Baetinger's hall, which was at that time a public hall up over the present Eaton Order Office, Starr's Jewellery and Nancy Ann Shop. This show ran in this hall during the winters of 1912 and 1913, with

New Dentist

Grimsby has a new Dentist, Dr. D. R. Copeland, D.D.S., of Pickering and Toronto, has purchased the practice and equipment of Major (Dr. Vasco R. Farrell) and has already opened his office in the Farrell block, upstairs, for practice.

Dr. Copeland is a graduate of Toronto University and practised at Exeter for some time. He will carry on the practice of general dentistry and will specialize in children's work.

PAY INCREASE FOR TOWN MEN

AGRICULTURAL DEPARTMENT
OPEN INSPECTION STATIONAsk Police To
Curb Rowdyism

Township Officials Receive Complaints From Residents—Water Consumption Takes Big Jump In July.

North Grimsby Township Council in session on Saturday, received complaints from residents along the lake shore, in the vicinity of the township pier; about the rowdyism and nuisance being created at that point by young men and women at nights and during early morning hours, particularly at the weekends.

Reeve Durham also reported that rowdyism was getting to a bad point in the east end of the township around the Park Road section. Council passed a resolution asking the Provincial Police to investigate the complaints and take whatever action they deemed necessary.

Councillor Mitchell reported that several citizens living on some of the roads in the west end were desirous of having rural mail delivery. They are at the present time not on the new mail route. For the present there is nothing that council can do in the matter as the route now in operation was laid out and sanctioned by the Postal Department's own inspectors.

Water consumption in the west (Continued on page 6)

HMCS Lions Club
Now In Service

"Admiral" Cecil Bell Holds Successful Launching Ceremony—Is Anchored Off Nelles Road.

On Friday last "Admiral" Cecil Bell and an able bodied crew of Lions Club members successfully launched "H.M.C.S. Lions Club" and the sturdy vessel is now anchored off Nelles Road and is being extensively used by the kids who frequent that popular bathing beach.

The vessel is a huge life raft that "Admiral" Bell purchased from the War Assets Board. It came off one of the boats that saw service during the war. The raft is about 30 feet wide and 40 feet long built of heavy hardwood slats (Continued on page 10)

Purpose Is For The Carrying Out Of Compulsory Inspection Of All Fruit And Vegetables Shipped Out Of Niagara District.

A new fruit and vegetable inspection station was opened on Tuesday, August 6th, 1946, on the Queen Elizabeth Way, near Fruitland, for the purpose of carrying out compulsory inspection of all fruits and vegetables being shipped out of the Niagara Peninsula.

This station is another link in the inspection service being established by the Fruit Branch of the Ontario Department of Agriculture. The purpose is to make certain that consumers will receive only properly graded produce, and is expected to benefit the producer by strengthening and expanding the market demand for Ontario orchard and garden products.

This service is set up under the Ontario Farm Products Grades and Sales Act, and will be open twenty-four hours daily. All fruits and vegetables being transported by motor vehicle moving through the area consisting of all that part of the Counties of Lincoln, Welland and Wentworth lying west of the

(Continued on page 6)

Minister Coming

The Hon. George Doucette, Minister of Highways for Ontario, will visit St. Catharines on Thursday, Aug. 15th, to discuss road problems with Lincoln County officials. The minister will be present at a meeting of the Road Committee of the County Council under the chairmanship of Reeve Charles W. Durham, of North Grimsby Township. On the following Monday, August 19th, Mr. Durham and the members of his committee will make an inspection tour of the county road system.

Coupons Expire

Meat coupons M-40 to M-50 and butter coupons R-10 to R-17 will expire on August 31 according to a recent announcement made by the Ration Administration.

"Beaver" and "Buffalo" coupons, issued to members of the armed forces and other temporary ration card holders, will not be affected by the change, and all sugar coupons will remain valid until further notice.

Ex-Mayor Johnson Surprised Council When He Appeared Before Them With Request That Increases Be Made—Pipes For Water Mains And Sewers Will Not Be Procurable Until 1947—County Rate Raised.

Town Council received somewhat of a shock last night when ex-Mayor Edric S. Johnson attended the regular monthly session, the first one he has been present at since the inaugural meeting in January.

The ex-Mayor came to the meeting for a purpose. He addressed council at some length, his theme being the rate of pay that is being paid to the outside employees of the town. He stated "I have never spoken to anybody about this matter, but with the cost of living the way it is today I do not believe that it is possible for these men to live decently on the amount of money they are getting. Moreover I have been studying this question for some time and have made personal investigation in several towns and villages and I find that the rate of wages in all cases are higher than they are in Grimsby. I also found out that some of the towns and villages were not only paying a higher rate but were employing more men than Grimsby and not getting any more work done."

Continuing, Mr. Johnson said, "I believe that the town has a very efficient staff. Men who at all times are doing their work well and in the best interests of the ratepayers, and I am speaking tonight as a ratepayer, I think that these men should be getting more money. I cannot see how they can keep their families adequately on what they are receiving."

The men at the present time (Continued on page 10)

Moulding Shop
Closing Down

Strikes Force Grimsby Stove And Foundry To Lay Off 21 Highly Paid Men—More To Follow.

Hamilton's steel strike has at last had the effect of closing down a Grimsby industry. How soon other plants will be forced to close remains to be seen as their supplies are rapidly dwindling.

On Friday night the moulding shop of Grimsby Stove and Foundry Co. will be closed down for lack of pig iron and steel. This shutdown immediately effects 21 high paid moulders.

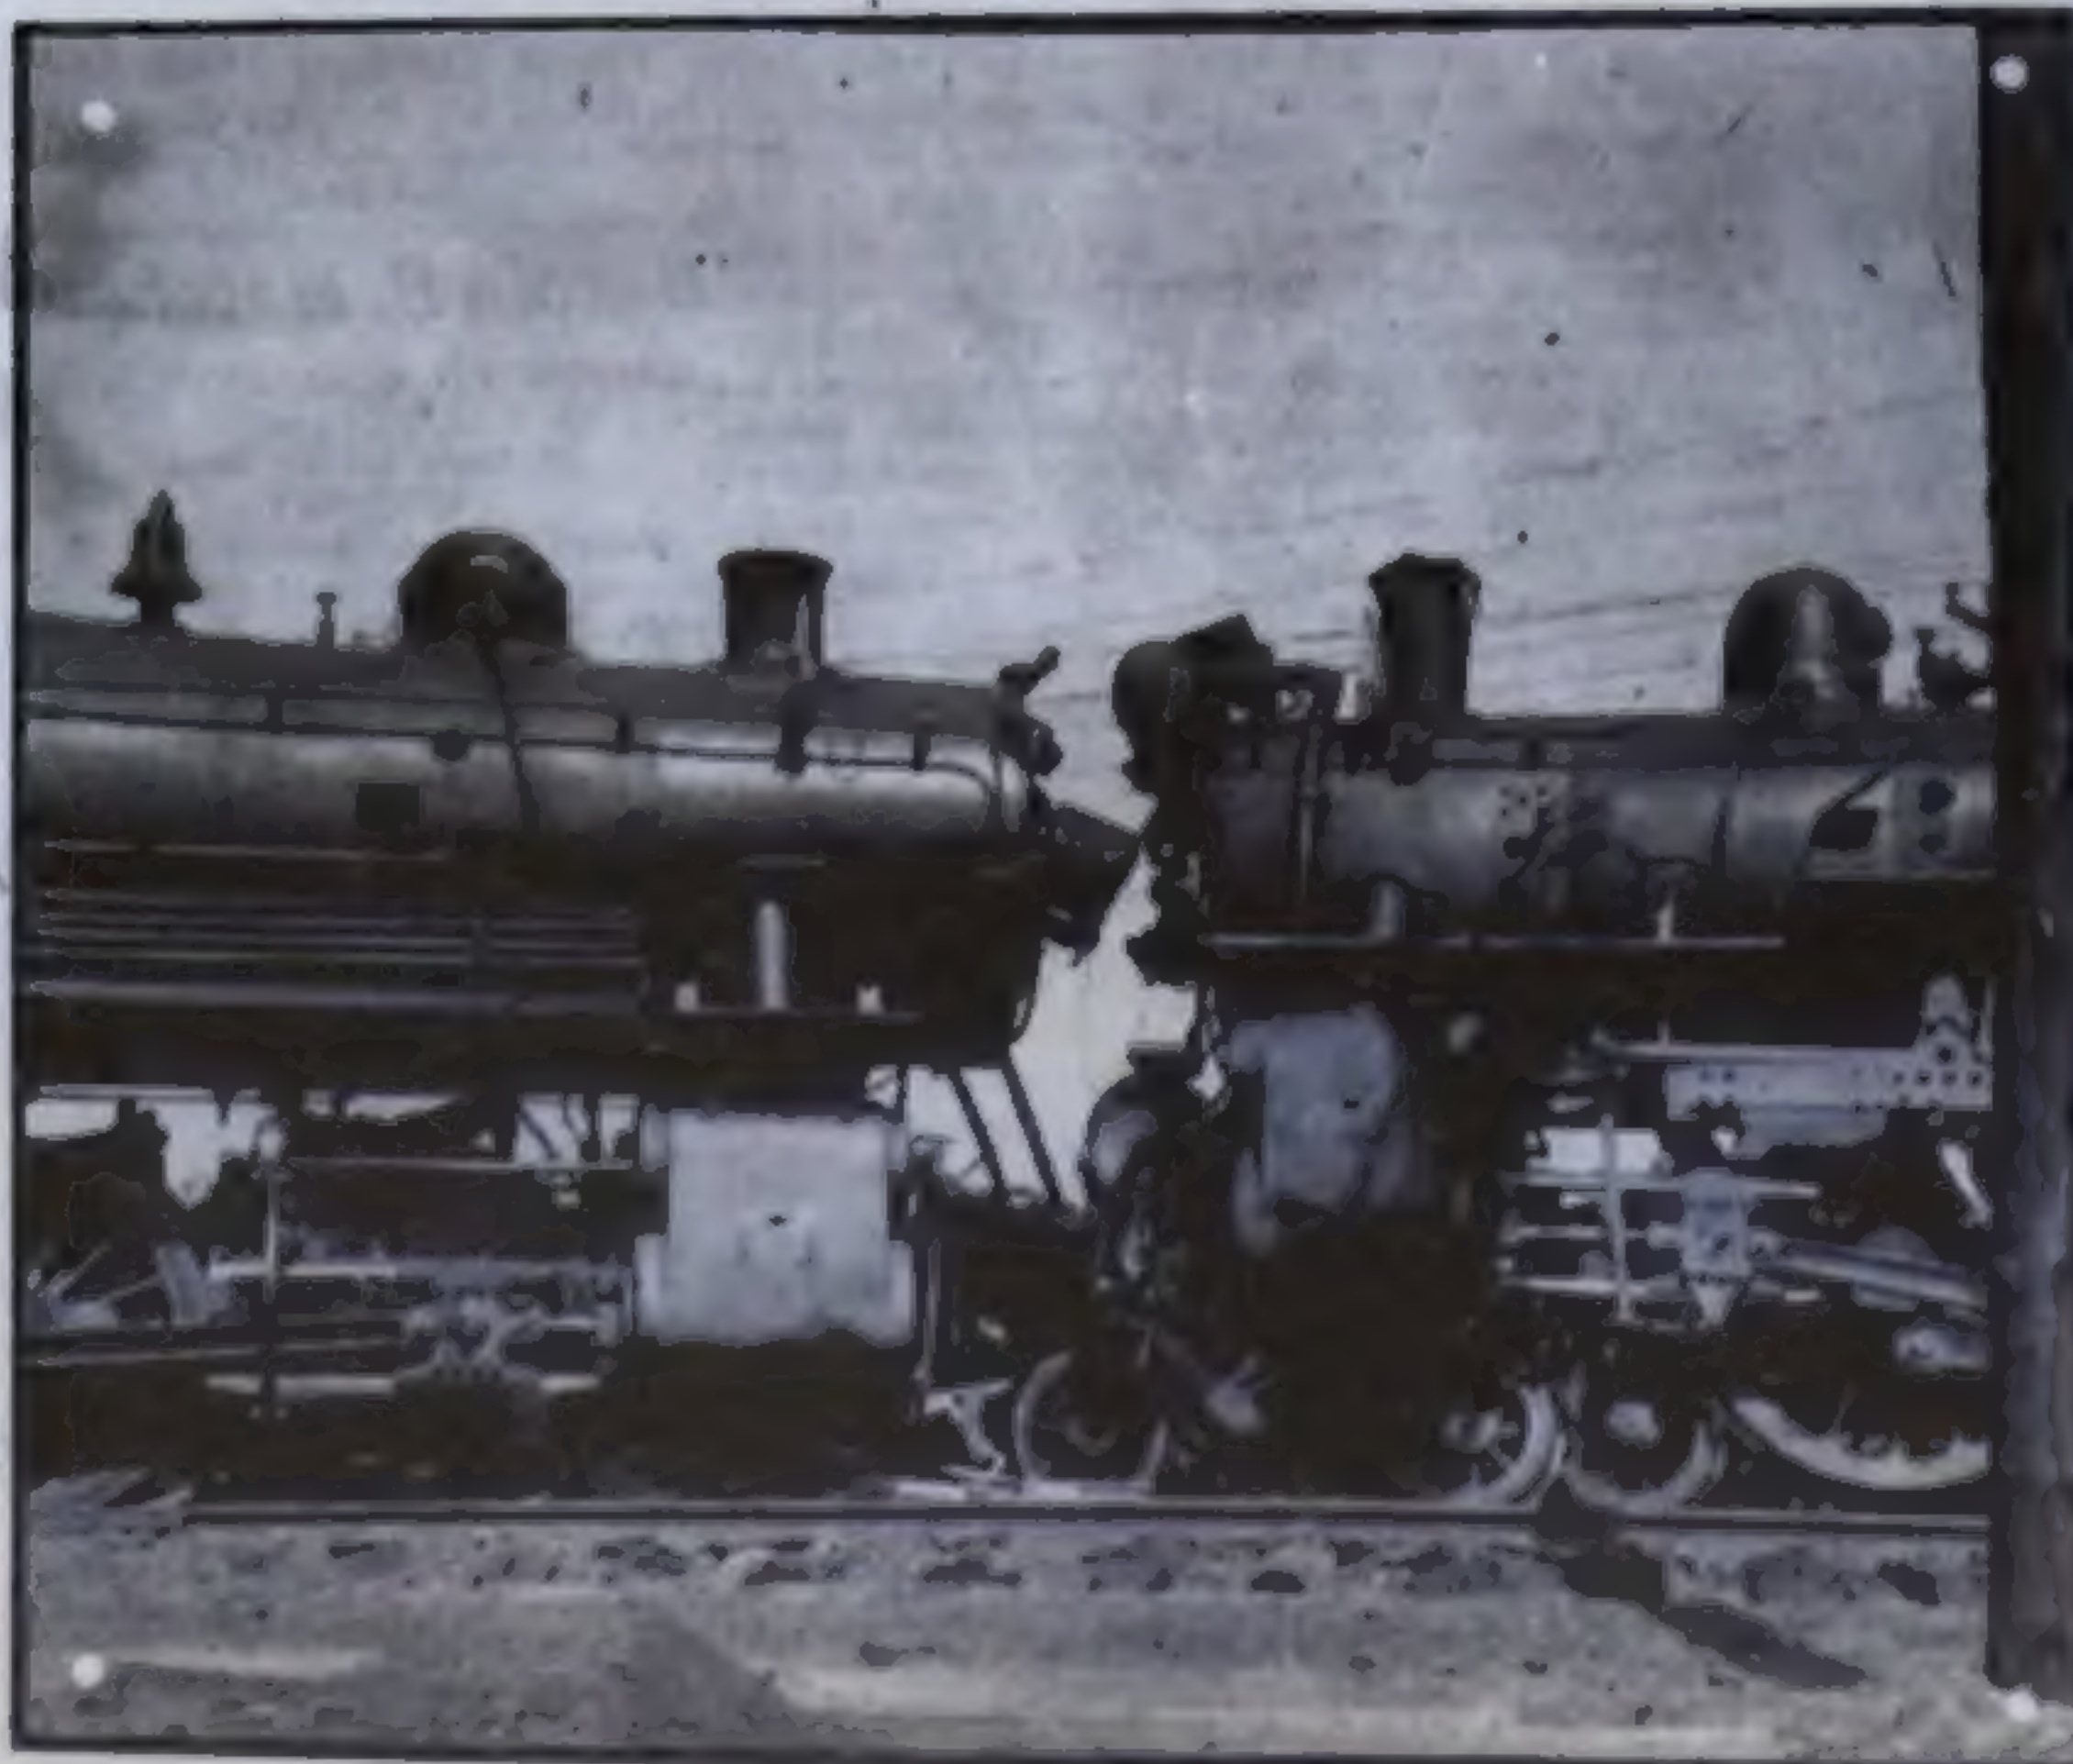

The stove and furnace mounters, polishers and shipping department employees will still be on the job for about a week or 10 days when (Continued on page 10)

PEACHES ARE ABUNDANT

The all time record crop of Grimsby Peaches will be harvested this year. As you know Grimsby peaches are of incomparable quality and flavour. It is up to every Grimsby and district resident to write to all their friends at distant points and persuade them to buy Grimsby peaches. Ask them to eat them fresh and in short cake, like this young lady is doing, in pies, in salads and can them for winter use. Once they use Grimsby peaches, they will use no others.

FACTS & FANCIES

Frank Fairborn, Jr.

EVERYBODY'S FRIEND

At seven-fifteen on Friday morning, August Ninth, One Thousand Nine Hundred and Forty-Six, the Pearly Gates of Heaven opened wide and The Soul and The Spirit of Bessie Kinsey Moore entered into the arms of The Great God of All.

Never in the history of this old United Empire Loyalist town and district has the passing of any individual stunned the people like the passing of Bessie Kinsey Moore. Their Friend. Their Neighbor.

Bessie Kinsey Moore was only a woman, a business woman, but what a woman. Throughout the width and breadth of this town and township and even into the districts that surround us, the people can tell you about her kindly, helping, generous hand.

No person can tell you that they ever went to Bessie Kinsey Moore for help, because Bessie Kinsey Moore was at their hearthside offering them help before they had a chance to ask for it.

Bessie Kinsey Moore was not a woman of wealth. Anything she had, she made. She was a keen business woman, naturally, being such, her theatre made money, but nobody knows, nobody ever will know what Bessie Kinsey Moore gave away to help the needy; to help the kids; to help the Veterans of two wars, particularly of the First Great War. West Lincoln Branch 127, Canadian Legion, attested to that fact some years ago when they had her made an Honorary Member of that great organization.

She was made an Honorary Member of the Lincoln Loyalist Chapter, I.O.G.E. In 1944 the citizens of Grimsby through the Lions Club saw fit to vote her the Good Citizenship Award of the Lions. An award that was popularly greeted throughout the whole district.

In 36 years of personal, business and public contact, I think that I can safely say that I never knew of any person—male or female—who had as much public spirit and as much sympathy for less fortunate neighbors, as Bessie Kinsey Moore had. I positively know of cases where she gave from her purse to render aid, when she actually needed it herself. But somehow she managed to pull through and she had already helped the other person to pull through.

For any man to sit down and write a real true story of the good deeds of this woman is positively an impossibility. Men in all walks of life can attest to her graciousness and her goodness, particularly the Old Vets. and the kids. Still none of us know one one-hundredth part of it.

When they laid this little lady away in God's Most Beautiful Acre, Queen's Lawn cemetery, on Monday afternoon, she was attended to her last resting place with all the honors that it was possible for the people of a community to extend.

Bessie Kinsey Moore came into this district 36 years ago with her good husband, the late Albert W. Moore and her little family. From that day until last Friday she has never been anything but a Good Samaritan to Her Fellow Man.

Bessie Kinsey Moore—Rest In Peace.

BED-TICK SUITS

If you think you see an animated mattress coming down the street, look sharply and learn that it is a summer coat of bed ticking hanging gracefully from the shoulders of a young woman.

Yes, bed ticking. It has made its appearance as an emergency material for versatile dressmakers and, strange to say, the coats that have made their appearance do not offend the eye.

Here would seem to be an opportunity for the man of the house to get his much-needed suit. Let him get the old feather bed from the attic, rip off the cover and proceed to get himself a nice beach suit.

It may not be exactly pin-striped, but that doesn't matter. It is certainly as durable and as natty as seersucker. Perhaps the greatest advantage is that its very appearance suggests relaxation. So, obviously, it wouldn't do for office wear.

O CANADA!

Scene of Action: Hamilton. Time: Midnight, Thursday. Central Figure: Nora Frances Henderson, Controller and Deputy Mayor. Author: Trained news reporter and eye-witness.

Wide-eyed and pale, a little woman last night walked out of the City Hall, with an escort of two aldermen, into a jeering, cursing mob of over 2,000; made her tortuous, stumbling way for more than 100 yards while scores in the crowd buffeted her, clawed, punched and kicked at her.

No arrests. No prosecutions. And what an ovation from the wolves the Mayor got! The eye-witness added to his report:

Minutes later, flanked by four constables, Mayor Samuel Lawrence smiling and waving to the wildly-cheering crowd, entered his car, parked at the foot of the steps. The car, with at least six officers walking ahead, passed slowly through the crowd.

What a wonderfully proficient police force in Hamilton, able to protect a man-sized Mayor who catered to the mob but unable to stop a little woman Deputy Mayor from being kicked and pummeled, buffeted, punched and clawed.

O Hamilton! O Canada!

I AM THE PRINTING PRESS

I am the printing press, born of the Mother Earth. My heart is of steel, my limbs are of iron, and my fingers are of brass.

I sing the songs of the world, the oratorios of history, the symphonies of all time.

I am the voice of today, the herald of tomorrow. I weave into the warp of the past, the woof of the future. I tell the stories of peace and of war alike.

When I speak a myriad people listen to my voice. The Anglo-Saxon, the Celt, the Hun, the Slav, the Hindu, all comprehend me.

I am the tireless clarion of the news. I cry your joys and sorrows every hour. I fill the dullard's mind with thought uplifting. I am light, knowledge, and power. I epitomize the conquests of mind over matter.

RETAILERS make constant use of banking services. In some cases these are simple but essential; the bank takes cash receipts on deposit, makes change, operates current accounts, and accepts and records used ration coupons. Other retail accounts involve considerable handling of drafts, and a very important service—the making of loans to enable retailers to take advantage of trade discounts. All this entails Banking in Action.

The Canadian Bank of Commerce has among its customers many retail houses, from the small corner store to the large chain and department store. Strict attention to their particular needs is given to all the Bank's customers.

Use our service for your banking requirements, whatever they may be. Consult your local Manager.

THE CANADIAN BANK OF COMMERCE

Grimsby Branch, John Holder, Mgr.

The Little Postmaster riding a bicycle.

Three o'clock on Thursday afternoon. Met Del. Merritt carrying a camp chair. "Where are you going, Delbert," says I? He replied, "Tonight is Firemen's Carnival night." Del. was just protecting himself for seating accommodation.

Rumor has it that Clarence Fleming, manager of the Dominion Store is going on holidays and after that will be in charge of the mammoth Dominion Store in St. Catharines. Grimsby's loss is a great gain for the County Town.

That wise crack last week about the good looking, eligible bachelor managers of the A. & P. and Dominion brought a flood of results. Can't tell what accrued to the Dominion boy, he being on holidays, but that handsome young coxer in the A. & P. can bed down in a lot of spots. He even has written testimony to that effect.

I am the record of all things mankind has achieved. My offspring comes to you in the candle's glow, amid the dim lamps of poverty, the splendor of riches—at sunrise, at high noon, and in the waning evening.

I am the laughter and tears of the world, and I shall never die until all things return to the immutable dust.

I am the printing press—Robert H. Davis, editor and publisher 1946 Yearbook.

Truth is the best sideline you can carry.

Take a firm interest in your firm's interests.

Many manufacturing concerns' greatest profits come from by-products. Employee, your by-product is your idle time. What profit are you getting out of it?

'WAY BACK WHEN

Frank Fairborn, Jr.

This week we present the last chapter of Grimsby Park history as penned by Mr. Coff. In succeeding chapters the story will be written by myself assisted by my trusty typewriter. Here goes for Mr. Coff's last stand.

Mr. Ford, the present treasurer of the company, has furnished the writer with the following statement of the sale of tickets for the season of 1900: The number of single admission tickets sold during the season was 12,231; two-day tickets, 463, three-day tickets, 306; four day tickets, 51; week tickets, 448; season tickets, 819. The above figures do not include the picnic parties of Sunday schools and other organizations which come in large numbers in June and July, nor the excursions that come across the lake by the steamer, nor those coming by the electric road or Grand Trunk Railway east and west. It is, therefore, quite safe to say that the number of persons entering the park by special excursion is fully equal to the number indicated above who were admitted by tickets. The receipts from the admission charges at the gate have for a great many years averaged between \$4,000 and \$5,000, and good revenues have also been derived from the various franchises enjoyed.

In 1899, by reason of vacancies caused by death and resignation of directors, the board had only three members who had held office previous to 1896. The new directors on their election were animated by the very laudable ambition to give the benefit of their abilities and business experience to advance the best interests of the Company. The directors who were thus actively engaged devising a new plan of operations and carrying it in to effect were Messrs. Wilkinson, Gorton and Ford, and the Reverend E. A. Chown and E. S. Rowe, who were greatly assisted in every way by the Company's solicitor, S. F. Lester, K.C.

On February 20th, 1901, the completion of the scheme of re-organization was effected by the election of the new Board of Directors. Mr. W. C. Wilkinson, of Toronto, was unanimously elected President. Mr. C. M. Gorton, St. Catharines, was elected Treasurer, the Rev. E. A. Chown of Toronto, was elected Secretary, and Mr. W. McElbion, St. Catharines, was elected as the representative on the Board of the holders of common stock. At the request of the shareholders the new Board of Directors petitioned the Lieutenant-Governor in Council to change the corporate name from the "Ontario Metropolitan Camp Ground Company, Limited" to that of "The Grimsby Park Co., Limited," and the familiar name is now the legal name of the new Company.

What the Grimsby Park of to-day is, is well described in the words of Mrs. Harriet Phelps Youmans, a niece of the late President Noah Phelps, in her little brochure, published last summer under the title, "Grimsby Park," "Historical and Biographical Sketches," from the pages of which a large part of the facts and figures of the preceding sketch have been gathered. She says: "There is no trace of the old camp meeting visible, as the train halts at the long covered platform which is called 'the station,' and the gay summer crowds pace up and down the wide promenade, animated and happy. The well kept drive and broad walk which lead to the entrance pavilion, and on through the wood and picnic ground to the huge temple, are shaded by rows of tall trees. To the right one sees the tennis courts, and to the left the picnic grounds, with seats and tables, cooking stoves and swings, and every convenience for the excursionists, who visit the place in great numbers every summer. Cottages and canvas tents are scattered through the open places in the woods, and a spacious horse-yard occupies a remote corner.

The water supply is unfailing and excellent, and is furnished largely by the same spring which was so important a factor in a choice of a location for the old camp ground. Across the way is the Park House, its broad veranda all affluted with the bright summer costumes of the ladies and children.

In every direction are cottages peeping out from among the trees, or lining shady lanes and avenues which straggle off in many bewildering ways. Through an opening between two dwellings the road passes into the auditorium with its circling cottages forming, like the old tents, the enclosure where the meetings have always been held and where stands the great temple or tabernacle.

The high bank along the lake front is lined with cottages, whose inmates can study the latter in all its moods. The sunsets are particularly fine.

Down on the beach the boat houses and the bathing houses stand and the long wharf runs out into the lake, forming a fine promenade and fishing platform, as well as doing its duty towards the steamer which calls every day. Rowing is popular, and a twilight trip to the lily pond pays well when a boat load of the lovely blossoms is the reward. Echo point is in the opposite direction and is a most interesting place to visit.

Lake View House commands a magnificent view of the water and enjoys the lake breezes whenever the slightest zephyr is stirring. Beyond are still more pretty cottages, and then the athletic grounds where all sorts of many sports are indulged in.

Great care is taken wherever it is possible to preserve the grounds in their natural condition. Mosses and lichens and wild flowers are everywhere. The birds dart about among the trees and the squirrels make themselves quite at home. In short, Grimsby Park is an up-to-date summer resort of the Champlainian class, with every facility for innocent and healthy enjoyment and sport. Due regard for the religious and intellectual habits of the people is shown in the preparation of the programme, which includes sermons, lectures, concerts, entertainers, classes in elocution and studies in literature, besides other attractions and no end of good things for the little people.

Some of the most eminent divines in America have addressed the Grimsby Park congregations, and many of the most brilliant platform speakers are to be heard there. An abundance of excellent music is furnished by the best bands of the country, and for the concert the very best singers are engaged. The pulpit and platform services have always been first-class and thousands of persons have been enabled to listen to sermons and lectures which by no other means could be brought within their reach.

Grimsby Park has grown very dear to the hearts of those who summer within its borders. The site which holds them here season after season, in spite of the attractions of other places, only grows stronger as the years go by."

SPORTOLOGY

(By Bones Livingston, Sportologist)

O.A.S.A. PLAYOFFS START TONIGHT—Despite the fact that the FRUIT BELT league has not as yet declared a winner still the GRIMSBY LEGION team gets under way tonight in the first of the playoff games in Intermediate "C" competition in the Ontario Softball Association. The visiting team will be JORDAN. The team from the east is reported to be a fair aggregation of horsehide toppers and fans are assured of a good game. Game is called for seven o'clock sharp. Be there at the Public school grounds.

PUDDINGHEAD CELEBRATES—There were hectic times in Beamsville last week. The eastern village just throbbled with excitement. So many things happened in such a short space of time in the REID family that OLD PUD still is walking around in a trance. Just one of those trances like he used to have when the OLD PEACH KINGS were going on a goal-getting spurge. First off the bat Harry Reid, Jr., recently returned from long service overseas, takes onto himself a wife on Saturday. Then on the holiday OLD PUD skips a rink at Kitchener against the finest competition in Ontario and brings home the solid gold SEAGRAM TROPHY. On Sunday the 4th, PUDDING became a grandfather, a son born to Ralph and Mrs. Reid. That's PUD THE SECOND, one of the stars of last winter's PEACH KINGS. It must have been a terrible weekend for the old war horse. I hope they name this youngster HARRY (because the kids will name him Pud) and if so he will be the third generation of the family of the late William J. "Barb" Reid to startle the world with scintillating performance on the frozen water. Congrats to GRANDAD PUD.

PEACH KINGS GO TO SCOTLAND

Away back in 1921 when Leslie J. Farrell, now of Trenton, and I proposed the building of the present Grimsby Arena, we were met with derision on all sides, but at the same time we had sufficient support to get the building erected. And if I do say it myself it is the finest institution that the Town of Grimsby ever had.

The old Arena has passed through a lot of trying times in its 23 years of existence, but Thank God it is still there and under the management of a group of men who will keep it there.

In the early days it was a struggle. But it trained a lot of kids and gave a lot of pleasure to thousands of people. Then the Famous Old Peach Kings came on the horizon, a team that would have been impossible had it not been for the Arena.

No man in this world could have taken, in the winters of 1925 and 1926, the huge sum of \$10,000.00, and purchased the advertising value that this team and the Arena brought to Grimsby and the Fruit Belt. Not only for those two years, but for the 20 years that have passed since then. Even on the bald prairies and in other out of the world places, today, they talk about the Peach Kings. And when they talk about the Peach Kings they are talking about Grimsby and the Great Fruit Belt.

Since those lush years many things have happened. Poor crops, depressions, wars, and you know all the rest.

Last winter the Arena opened its doors again for the kids, the public and the would-be hockey players. It was worth it. The men who guided the team, Big Rushton and Old Pop McVicar, went a long way with not much to start with. But they had a willing bunch of fighting kids and they had the finest ice sheet in the world and at their disposal all the time.

The efforts of those men and all others connected with them, in one season, and the availability of the Arena, is bearing fruit.

The front page of this paper for three years has been yowling and howling "Fruit By Air," to all points of the compass, and did not get very far. Now it remains for the Arena and a couple of Old Tom Warner's Rink Rats to come to the fore and carry the name and fame of Grimsby Peaches overseas.

Smiling, wavy haired Howard Duffield, son of R.C. and the late Mrs. Duffield, Paton Street, and slim, quiet Jack Clancy son of George and Mrs. Clancy, Ontario Street, are only a few days away from sailing to the old country and it will not be many days until they will be stepping out on the ice in some rink in Scotland and telling the world "We are Peach Kings. We come from Grimsby."

Only 70 men are being taken to Scotland for sideama, and this pair of kids made the grade under the eyes of the most critical hockey judges and experts in Canada. The kids, for they really are only kids, coaches and experts in Canada. The kids, for they really are only kids, despite the fact that they have both seen service, wipmake good. Old Tom and the men who handled them from babies up, know what is there with proper development. Apparently the critique know too.

The old Arena, has done its job. The men who are fumed and bothered and spent their money in develop and help along the kids of the district have done their job.

Would it not be a nice thing for the sport far of this district to get busy and throw a few shekels into a pot and buy a gift of some kind and give to these two Ambassadors of Good Sport and Good Will before they leave these shores for foreign soil to carry the name of Peach Kings and Grimsby to higher honors and to greater publicity in the great world of sport.

Think it over folks. Any of those brown nickels that you have laying around The Independent will gladly count for you.

If 3rd game necessary, play on

August 22nd.

FINALS

Winning teams best 2 of 3 gam-

es. Commencing August 27th.

Games at 7 p.m.

In Competition With Red Army

Columbia Pictures found itself in competition with the Russian Army not long ago in its efforts to obtain all available black horses.

The animals were sought for the Cornet Wilde-Anita Louise picture in Technicolor, "The Bandit of Sherwood Forest," which shows at the Rex the first three days of next week.

Ranchers who supply studio needs for horses said that animals of this color had been bought by the hundreds for shipment to Cossack cavalry regiments.

AIR TREATMENT

Even when skies are overcast, "sky-oline" is almost as good as sunshine as a health-giving factor, according to authorities in the Department of National Health and Welfare at Ottawa. City dwellers need to get out into the open frequently to compensate for life in crowded surroundings, say the specialists, and this is particularly important for those whose livelihood keeps them in smoky manufacturing areas.

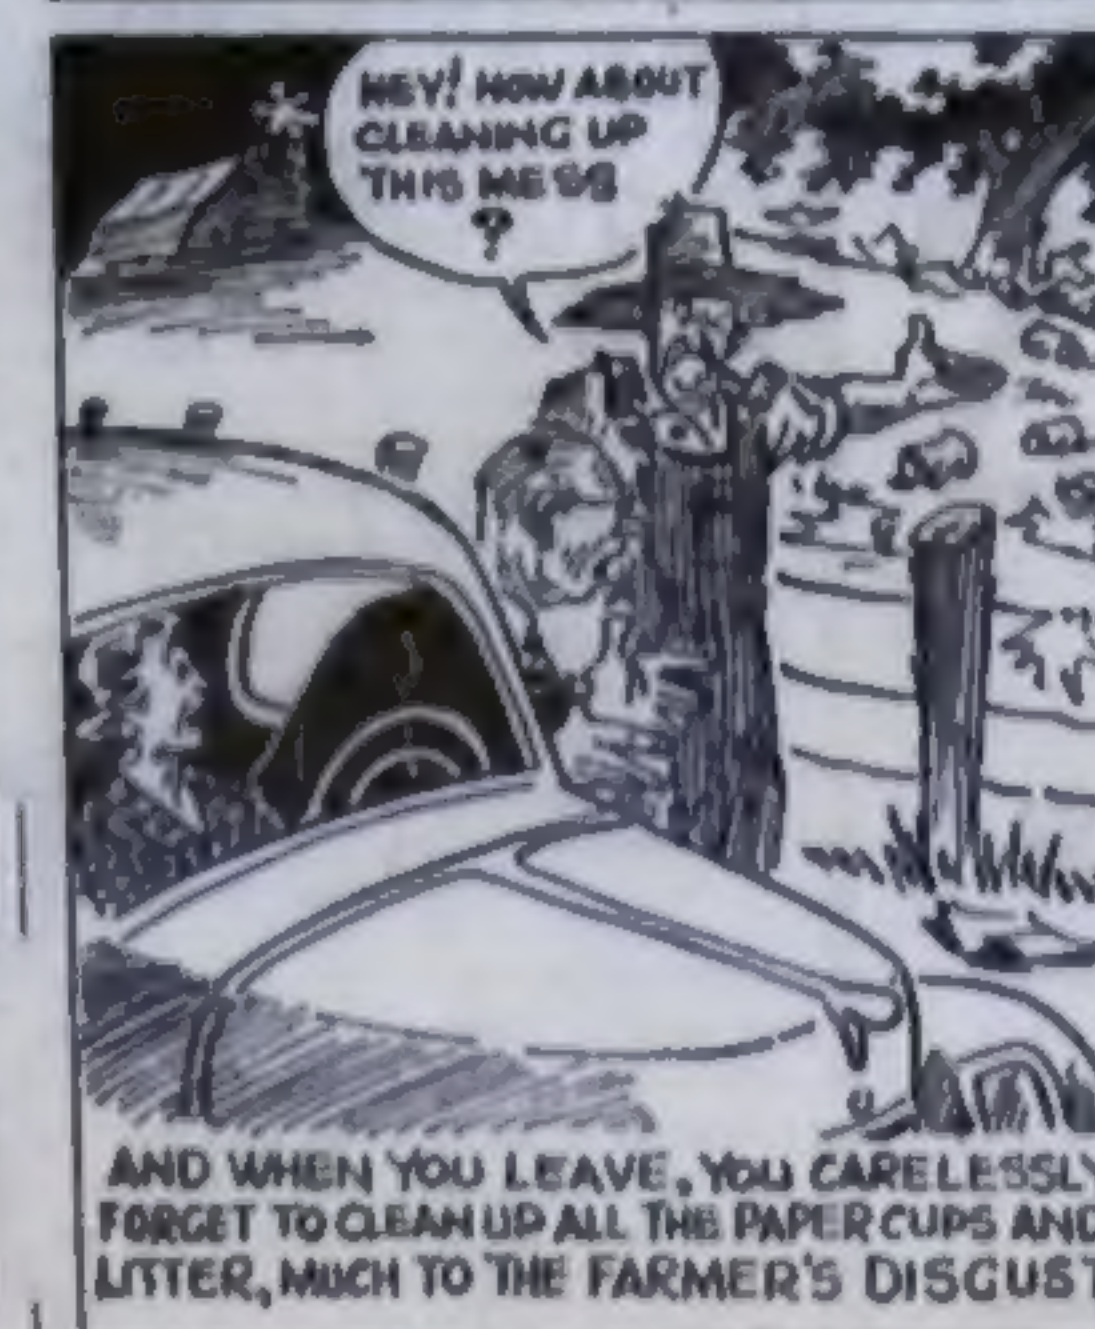

D'J'EVER?

D'J'EVER, RAISE A TERRIFIC FUSS ABOUT THE NEIGHBORS' KIDS LEAVING WASTE PAPER ALL OVER YOUR LAWN

BUT A FEW DAYS LATER YOU TAKE THE FAMILY OUT INTO THE COUNTRY FOR A PICNIC —

AND WHEN YOU LEAVE, YOU CARELESSLY FORGET TO CLEAN UP ALL THE PAPER CUPS AND LITTER, MUCH TO THE FARMER'S DISGUST

Obituary

WALTER McRAYE

Funeral services for the late Walter McRaye were held from the Stonehouse Funeral Home on Friday afternoon last, Rev. Dr. Neil M. Leckie officiating. Members of West Lincoln branch 127, Canadian Legion, attended in a body and interment was in the Plot of Remembrance, Queen's Lawn cemetery.

Casket bearers were six legion comrades, Thomas Warner, A. Bromley, T. Herbert Jarvis, Wm. Lothian, Howard Caudwell and Victor W. Thompson.

The late Walter McRaye was a great-grandson of Colonel W. and Lyvinnia Comstock Smith, United Empire Loyalist founder of Smith's Falls, Ont., who was 2nd Lieut. in the King's Royal Regt. of New York. He fought in the battle of Queenston Heights in 1812 and was made a Major.

Through an error we last week stated that Mr. McRaye was born in 1870, this should have been December 31st, 1878.

Nurses Needed

The Provincial Government of Ontario Offers A Nine Month Course For Nursing Assistants - Commencing September 16th, 1946

The course will consist of three months' instruction in a central school and six months' practice under supervision in selected hospitals and will lead to a certificate as a Certified Nursing Assistant.

Requirements:

- An interest in nursing
- Good Health
- References
- Grade X Education
- Age—between 18-40.

Advantages of Course:

Sixty Dollars a month less cost of maintenance will be paid during the nine months.

Cost of transportation will be provided for Ontario residents from their place of residence to the Central School and from the Central School to the Hospitals where the practical training is given.

A Certificate will be given by the Department of Health on completion of the course and the successful passing of the required examinations.

Opportunities for employment in this field after graduation.

Applications:

Forms may be secured from the Superintendent of your local hospital or The Nurse Registration Branch, Department of Health, Province of Ontario, TORONTO.

Grassie News

(Mrs. Clifford Walker, Staff Correspondent)

The Good Neighbour Club is holding a picnic at the School grounds on the 21st of this month.

Friends will be glad to know that Mr. Ted Duck who has been ill is very much improved.

Mr. and Mrs. Weber and Mr. and Mrs. Wm. McCollum visited with Mr. and Mrs. Chas. Barlow on Sunday.

A delightful shower was held at the home of Mr. Ted Duck Thursday evening in honour of Mr. and Mrs. Wm. Morrison. The bride received many lovely and useful gifts.

After a visit with Mr. and Mrs. Peter Robertson, Mr. and Mrs. Robert Robertson returned to their home in Susquehanna, Pa. last week. Mr. Robertson is an uncle of Mrs. Cliff. Walker, whom she had not seen for 18 years.

Grimsby Red Cross

Almost daily at the Ontario Division Headquarters of Red Cross in Toronto, letters of warmest appreciation continue to arrive from Britain expressing the thanks of those who have received shipments of infant food. These, including tomato and orange juices and vegetable purées, were purchased with funds originally raised for the Jan-for-Britain project which last year had to be abandoned because of lack of available sugar.

"I would like to thank you most sincerely for the gift of tomato juice and vegetable purée sent to us for use in the Day Nurseries under my care" writes C. M. Ritchie, Maternity and Child Welfare Superintendent, Mount Pleasant School, Southampton. "The children love it; and it is good to know we can give them something so beneficial to them. The people of Canada have been so kind and generous in so many ways it gives me pleasure to have this opportunity of thanking them and telling you how much it has meant to us to know you think about us."

FIRE FIGHTING

Ancient Rome was the first city to have a regular fire department, according to The Book of Knowledge. Numbering 7,000 it included human alarms, fire houses, firemen in metal helmets and leather clothing, wooden hand pumps like syringes, axes, hammers, saws, sectional ladders, a bucket-brigade, a fire chief in a chariot a life-saving pillow carried even by modern fire-fighters, and a fire marshal who set up a court of inquiry before the flames died down.

A woman's advice from the back-seat is usually right, says a jurist. And one will remind you of the fact if you don't take it too.

If you build a better mouse trap the chances are somebody will imitate it with a new kind of plastic before a path is beaten to your door.

Welcome

West Lincoln Births

August 7th—To Harold and Mrs. Smith, Smithville, a son.

August 13th—To John and Mrs. Shorthouse, Beamsville, a son.

August 14th—To Harold and Mrs. Librock, Fruitland, a daughter.

County Roads

The Road Committee of the Lincoln County Council met Thursday morning under the chairmanship of Reeve Charles W. Durham, of North Grimsby Township in the office of County Engineer F. E. Weir. Accounts were passed for payment and only minor items of business were transacted. The Industrial Home Committee met last evening with Reeve George Wiley of Louth in the chair. Recommendations of the Home Board will be presented at the next general session of the County Council on Tuesday, Aug. 20th.

A PRAYER

The Industrial Accident Prevention Association have re-printed a prayer said to have been found in Lancashire, England, on the wall of an old inn. With the idea of encouraging co-operation, the Association have sent copies to industry throughout Ontario.

Here is the prayer:

Give us, Lord, a bit of sun,
A bit of work and bit of fun;
Give us all, in the struggle and splutter,
Our daily bread and a bit of butter;
Give us health, our keep to make,
An' a bit to spare for poor folk's sake.
Give us sense, for we're some of us duffers,
An' a heart to feel for all that suffers.
Give us, too, a bit of song,
An' a tale, and a book to help us along,
An' give us our share o' sorrow's lesson
Tat we may prove how grief's a blessing.
Give us, Lord, chance to be
Our goodly bit, brave, wise and free.
Our goodly bit for ourselves and others,
Till all men join to live as brothers.

Ho, hum! The best thing to find is an argument.

A pretty woman reached her middle-age when she ceases to draw a whistle from a man.

We wouldn't of the world today even if it's a fence around it. It would be half patrol the darn fence.

AT PRESENT LINCOLN

severity of the other symptoms. Later on there is stiffness of neck and back, so the chin can not be put on the chest. At this time there is profuse perspiration, and the face becomes flushed on the slightest exertion. In a few cases paralysis is the first symptom, but these cases are very uncommon.

During the summer months mothers should be constantly on the watch for early symptoms of polio, and should call a physician for any one showing signs of unexplained illness. The patient should be put to bed, and isolated from the other children until your doctor has examined the child.

There is much that can be done to prevent crippling after polio; but all cases must be treated in hospital to obtain the maximum benefits.

What should be done in any community to try and protect people, and to relieve anxiety of mothers? As far as Lincoln County is concerned, there are at present no cases of poliomyelitis but the Health Unit through the press will let you know if any case is reported. This should do away with the numerous telephone calls received asking about the number of cases in our County.

It is thought that this disease is spread by personal contact with persons carrying the infective agent in their nose and throat who cough or sneeze and spread the virus to others. Hence the need of avoiding crowds when polio is prevalent. This also explains why children especially should not go from a municipality where there are no cases to a place where cases have been reported. Food, milk, fruit or water may be contaminated and produce cases which shows the need of cleanliness, the washing or peeling of all fruit, and the avoidance of swimming in water which may be polluted by sewage. Flies may play a big part in the spread of polio. Certainly there are only epidemics when these pests are prevalent.

The St. Catharines Lincoln Health Unit checks all municipal water and milk supplies, and makes recommendations to various councils in order to insure a safe and pure supply.

Children during the late summer months should stay at home, should avoid anyone who appears ill and should stay from crowded places.

This year it is hoped that there will be no cases of poliomyelitis in Lincoln County, but if cases appear there is no need for panic. Mothers need not become hysterical if cases appear close to home. Remember that few of those infected have paralysis which persists. Do not rely on your own judgement if a child takes ill at home. Call your doctor at once for suspected "flu" or summer complaints.

The following precautions should be of value:

1. Avoid over-fatigue. Let children have adequate rest.
2. Pay attention to personal cleanliness. Wash hands before meals.
3. Avoid tonsil and adenoid operations in children if polio is present.
4. Use pure milk and water.
5. Keep flies out of house and away from food.
6. Wash fresh fruit and vegetables carefully.
7. Raw fruit and vegetables should be peeled.
8. Do not swim in water in which there may be sewage.
9. Avoid contact with persons who appear ill.
10. Keep children away from crowded places.
11. Call your physician at once for unexplained illness.

Should you wish to know more about poliomyelitis ring the St. Catharines-Lincoln Health Unit or ask your District Nurse for a copy of an interesting pamphlet prepared by the Ontario Department of Health for free distribution.

AGRICULTURAL DEPT.

Niagara River and bounded by Highway No. 20 on the south and west and by Lake Ontario on the north, must proceed to, and stop, at this Highway Inspection Station. The Order reads as follows:

THE FARM PRODUCTS GRADES AND SALES ACT
INSPECTION OF FARM PRODUCTS
IN THE NIAGARA DISTRICT

WHEREAS subsection 2 of section 3 of The Farm Products Grades and Sales Act provided that the Minister may designate places where farm products may be inspected and such highway inspection points as may be considered necessary:

TAKE NOTICE that Highway Inspection Station on The Queen Elizabeth Way, located near Fruitland, in the County of Wentworth, Province of Ontario, is designated by me as a highway inspection point for the inspection of fruit and vegetables;

AND TAKE FURTHER NOTICE that all fruits and vegetables which are being transported by motor vehicle through the area herein described or from the area herein described to any destination outside the said area shall proceed to and stop at the above mentioned Highway Inspection Station for an inspection of the fruits and vegetables so transported. The areas shall consist of all that part of the Counties of Lincoln, Welland and Wentworth lying west of the Niagara River and bounded by Highway No. 20 on the south and west and by Lake Ontario on the north. Dated at Toronto this 30th day of July, 1946.

Signed by:
The Honorable Thomas L. Kennedy
Minister of Agriculture.

ASK POLICE TO

and took a terrific jump in July from the average 230,000 gallons to 766,000 gallons. East end residents including the Beach consumed 2,847,000 gallons.

Joint Fire Committee accounts for \$21.54 were passed.

Ontario Department of Health has given approval of the construction of the new proposed Kelson avenue water main. Department of Militia and Defence have also assured council that they will bear their share of the cost once actual construction figures are secured. It is now proposed to extend this main about 100 rods east on the Barton St.

July relief costs amounted to \$90.

Clerk Thos. W. Allan was instructed to write a letter of condolence to the family of the late Mrs. Bessie K. Moore.

Niagara Falls city council want the Department of Highways to light the Queen Elizabeth Way for its entire length and requested council to back their efforts in this regard.

Notices will be posted at the township pier prohibiting the removal of sand and gravel from the beach without the sanction of the proper authorities.

HIGHWAY NO. 8, JUST WEST OF GRIMSBY

THE PROVINCE OF PROMISE...

Central ONTARIO'S rich pasture lands have, from the earliest days of settlement, sustained larger herds of dairy cattle than were necessary to the Province's own needs. In those 'earliest' days, which were not much more than a century ago, dairy production was exceedingly primitive, but the 1891 census disclosed the existence of 1,565 cheese factories in the Dominion, of which Ontario had 893. Today, this great showing is paralleled in every branch of Canada's dairying industry... Tomorrow, the Province's facilities will be more than equal to the demand for milk and its growing diversity of products.

Published by THE BREWING INDUSTRY (ONTARIO)

A CORNER ON CONES

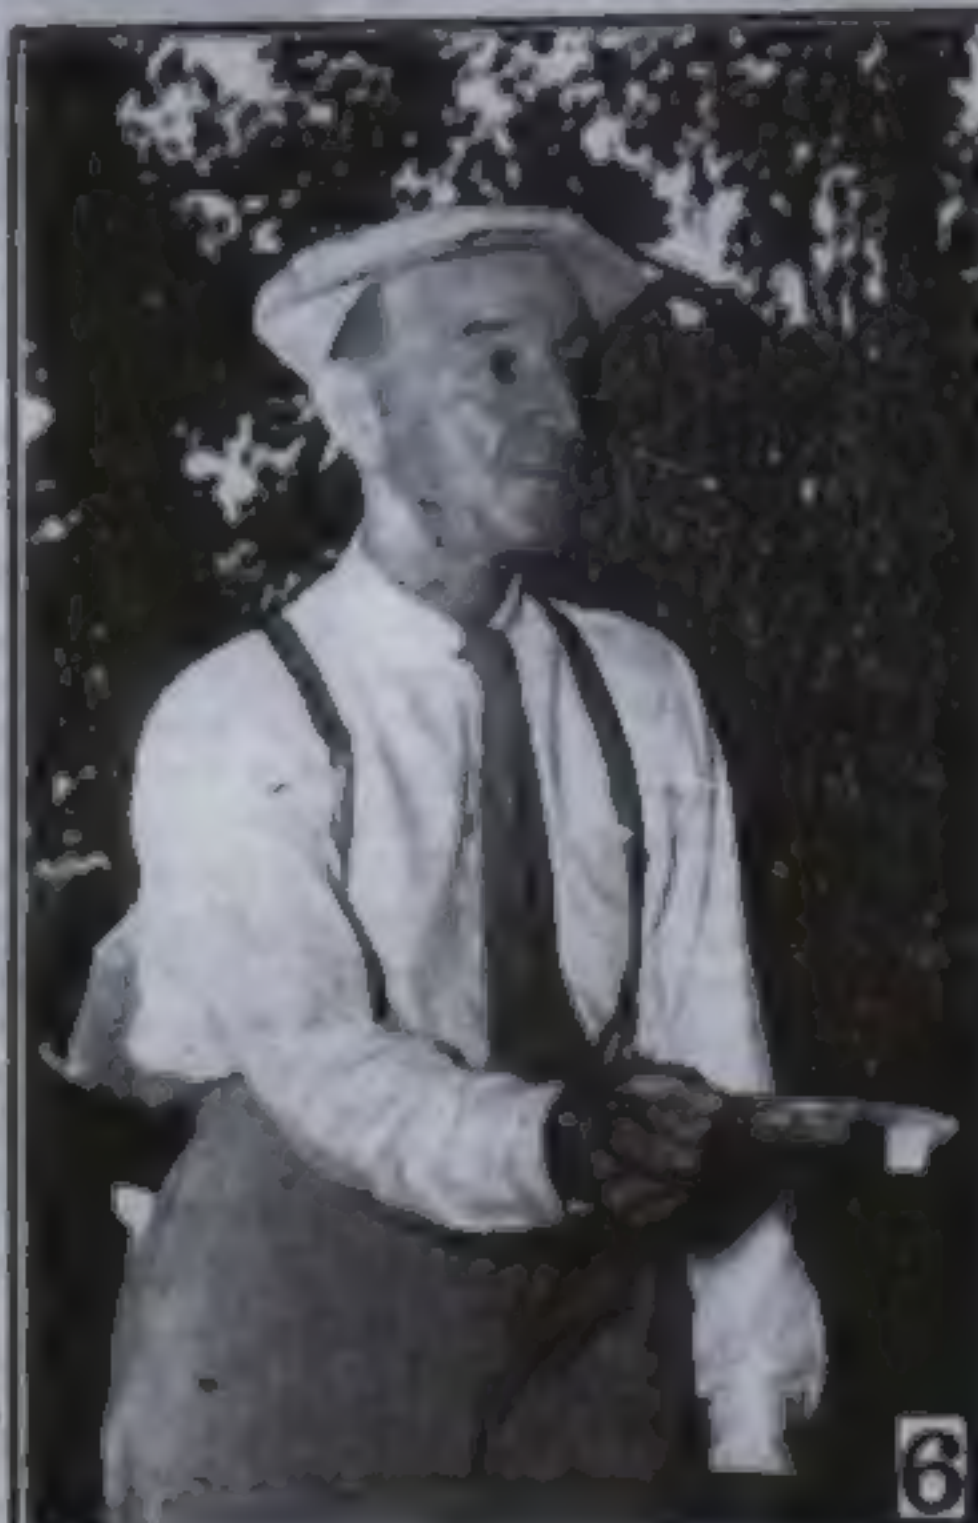

Nearly six billion pounds of milk are consumed or processed annually in Ontario; the yearly value of Ontario dairy products runs around \$140,000,000; Ontario butter and cheese production is about 200,000,000 pounds a year. The chief credit for these last figures, which are about one-third of the totals for the entire Dominion, goes to Ontario's 1,200,000 milk cows—themselves a third of Canada's dairy herds. The Province's 8,500,000 gallons of ice cream, however, amount annually to 50% of the nation's 'sundae'—which may explain the noticeable cone-consciousness of young Ontarians.

Company Sponsors Picnic

The war years broke the continuity of the annual picnic for employees and their families given by E. D. Smith and Sons, Limited, of Winona. Two weeks ago the gala fun day was resumed and the cameraman caught these happy pictures. No. 1—The winning team in the tug-of-war contest; No. 2—Brigadier Armand Smith, with his two sons, Llewellyn (left) and Alastair (right); No. 3—Mrs. Arthur Parker plays horse with her young son, Dennis; No. 5—Martin Angleman specialized in tea cup reading; No. 6—James Law enjoyed the horse shoe pitching contests; No. 7—Louw Broadfield won the watermelon eating contest.

F · R · A · Z · E · R

SUPER Disc Harrow

We call it the Frazer Super Disc Harrow because only super expresses its superior weight, speed, and performance. Super penetration and super cutting power result from its greater weight (800 pounds heavier than 8-foot standard discs), correct draft lines (from high gang frames and couplings), and big, heavy disc blades that can "take it" (full 9-gauge, heat-treated steel of proper concavity and mounted on oversize 1-1/8 inch gang bolts). The high-speed bearings with center thrust rings are massive, extra hard white iron. They require no bushings. With normal use, these bearings last the life of the harrow. Clearance is super, too. High gang frames permit trash to pass without clogging. A pull on the rope control straightens gangs while tractor is in forward motion. Rear gangs adjust to any desired set. Equipped with adjustable hitch stand, spade-type steel blade scrapers, and rear gang weight boxes.

SPECIFICATIONS

Cutting width 7 feet
Weight 1690 lbs.
Disc spacing 7-1/8 in.
Disc diameter 20 and 22 in.
Lubrication Zerk system
Trailer Tow-Bar Available as extra equip.
Additional sizes planned for 1947

SPECIAL Disc Harrow

The Frazer Special Disc Harrow is special in several ways. First, it's a good 200 pounds heavier than most standard discs of this size. Second, the high gang frame construction is engineered to utilize every bit of weight and tractor pull to give better than ordinary penetration and cutting power. Third, it has the same type high-speed, hard white iron bearings as the Frazer Super Disc. These bearings don't use bushings. Clearance on the Frazer Special Disc is exceptional, too. Note the strong but slender bearing standards, high gang frames, and extra high tandem hitch. There's space to let even heavy trash through. With the rope control, operator can straighten gangs while tractor is in forward motion. Rear gangs can be adjusted to any desired set with the tandem screw control. Regularly equipped with spring steel scrapers, weight boxes and a tow-bar to take strain off the frame.

SPECIFICATIONS

Cutting width 8 feet
Weight 1055 lbs.
Disc spacing 6-11/16 in.
Disc diameter 16 and 18 in.
Lubrication Zerk system
Additional sizes planned for 1947

SPIKE TOOTH Harrow

Spikes the the business end of a good harrow. It's the spikes that penetrate, cut, and pulverize, level and compact the seed bed. The efficiency of this final stage of seed bed preparation has a direct bearing on yield. That's why we felt it important to put big, burly "he-man" spikes in this harrow. They're a full 9/16 inch (not 1/2 inch) square. Because they're square you can use all four cutting edges. Every tooth is properly spaced and solidly anchored in a heavy angle bar. They don't track. They don't gather trash. Each section is independently hitched to the drawbar for flexibility. One man can fold the drawbar and end sections of a 4-section harrow to 11 feet.

SPECIFICATIONS

Teeth 9/16 inch square
Tooth Bars 1-1/8 inch angle bar
Hitch All steel, folding
Drawbar All steel folding

Available in Following Sizes

1-Section 5 1/2 ft. 3-Section 16 1/2 ft.
2-Section 11 ft. 4-Section 22 ft.

From Page One

PROMINENT GRIMSBY
a great reception from the public, because the late A. W. Moore would not stand for anything but the very finest of pictures and his widow in the long after years followed the same procedure.

During the years preceding 1911 the then Village of Grimsby purchased the vacant lot on Main St. from the late Dr. W. E. Millward, presumably for library purposes. With changed plans, the library being built where it stands today at the corner of Depot and Adelaide streets, and with the demand from the public for clean entertainment, and with a view to develop our then village and district, ex-Mayor Edric S. Johnson, just then, at the end of 1913 completing two years service as Reeve of the Village, along with our present North Grimsby Councillor, William Mitchell, approached Mr. Moore with the idea of building a theatre on Main street. The result was that in the Spring and Summer of 1914 Moore's Theatre was constructed.

Then came the declaration of war of 1914-18. That is really when Mrs. Moore started to come into the picture. Up until that time she had never been very prominent with the public. She left that to "A.W." But wars make changes. And she did become very prominent in support of the boys that were going overseas.

Then comes the Easter tide of 1917—Easter Sunday, April the 8th—they laid Albert W. Moore away in Queen's Lawn cemetery. The managerial mantle of Moore's theatre then fell upon the shoulders of Beattie Kinsey Moore.

Talkies were coming in. She wanted to be abreast of the times. She put them in at a terrific expense, in fact, before they ever were installed in St. Catharines. From then on Moore's theatre was one of the recognized moving picture spots in the south-western half of Ontario.

In the fall of 1944 Mrs. Moore sold Moore's theatre and shortly after, with her daughters and sons-in-law, purchased The Village Inn, which they operated most successfully for one year and then sold to Mr. Gordon Hannah.

That span of years, from 1917 to 1944, was a span of joy and general expansion for Mrs. Moore. She helped the town to grow, and saw the kids, hundreds of them, grow to maturity and go out to serve the Empire. She was always eager to help organizations and individuals working for the personal good and the greater development of the district in which she lived.

She was a charter member of The Pioneer Moving Picture Association of Canada; Honorary Member of Lincoln Loyalist Chapter, I.O.G.E.; an Honorary Member of West Lincoln Branch, 127, Canadian Legion, under whose auspices the last rites were held on Monday. She was a member of St. John's Presbyterian church.

Mrs. Moore was born at Georgetown, Pa., and when a young woman went to Cleveland, Ohio, to reside where she met and married Mr. Moore, coming from that city to this district.

Funeral services were held on Monday afternoon, a private service being held at her late home for immediate members of her family and public service in St. John's church. Rev. Dr. Neil M. Leckie officiating. Her casket was draped with the Union Jack with her Legion cap lying on top.

Services were attended by a large gathering of citizens both at the church and at the graveside. West Lincoln branch 127, Canadian Legion attended in a body, the simple Legion service at the cemetery being in charge of Comrade President George Marr, and Mrs. George Warner of the Legion Auxiliary.

Casket bearers were Legion Comrades, Fred. Jewson, Thos. Warner, D. E. Anderson, Robert Aldrick, George Doucet and Norman Warner.

Surviving are her two daughters, Mrs. Richard (Mildred) Shafer, Grimsby, and Mrs. Elma Bradford, Miami, Fla.; one brother, Samuel Kinsey, Georgetown, Pa.; three sisters, Mrs. Mary Winch, Cleveland, Ohio, Mrs. Anna Dawson, New York City and Mrs. Lillian Laughlin, Georgetown, Pa.

The floral tributes were most beautiful and numerous and attested to the high regard in which this lady was held by all.

Beaver Club, St. John's Presbyterian Church and Ladies Aid, The Grimsby Independent, The Boy Scouts, Canadian Bank of Commerce, Romy Theatre, I.O.G.E., nine former Moore's Theatre ushers, West Lincoln Branch Canadian Legion, Mac Signs and staff, Mr. and Mrs. G. Hardman, Mr. and Mrs. G. Doucet and Ritchie, Mrs. DeMille and Grant, Mr. and Mrs. R. Bosham, Mr. and Mrs. G. Curtis and Wendy Lou, Mr. and Mrs. Wm. Shafer, Mr. and Mrs. H. Campbell and John, Mr. and Mrs. F. Carson, Mr. and Mrs. F. Jewson

and Havelock, Mr. and Mrs. R. Cloughley and Larry, Mr. and Mrs. D. E. Anderson, Miss Ann Crane, Mrs. Love and Jean, Mr. and Mrs. F. Hitchman, Mr. and Mrs. T. Voigt, J. R. McVicar and family, Dr. and Mrs. Rogers, Mr. A. E. Bourne, Mr. and Mrs. Bert Boulter, Mr. and Mrs. G. Shafer, Mr. and Mrs. Don Beamer, The Wesley Galliehan family, Mr. and Mrs. C. H. Kirk and Helen, Mr. and Mrs. Ollie Shaw, Mr. and Mrs. Herman Shafer, Albert Admans, Murray Nelson and Bill Fisher, Mr. and Mrs. C. N. Woolman, Clifford Schwab, Mrs. Margaret Hurst and family, Mr. and Mrs. G. Carson and Mrs. Emma Shafer, Mrs. M. Powell, Mr. and Mrs. E. Stonehouse, Verba and Bruce Shafer, Mrs. John H. Gibson and Miss Marion Gibson, Mr. and Mrs. Fred Schwab, Mr. and Mrs. Frank Woolverton, Mr. and Mrs. N. Warner, Mr. and Mrs. Dave Bell, The Cole family,

Mr. and Mrs. H. L. Stewart, Mr. Addison Shafer, Mr. and Mrs. Aldrich and family, Mr. and Mrs. B. W. Graham, Mr. G. Hannah and Miss O'Neill, The Farrow family, Mr. and Mrs. R. Theal, Mrs. LeRoy Holmes and family, The Livingstone, The McCoy family, Mr. and Mrs. E. Workman and Mr. and Mrs. S. Huttmacher, Mrs. A. Dawson and Mrs. O. Pease, Mrs. L. Laughlin and boys, Mr. Albert Kinsey and family, Mr. Arthur Kinsey and family, Wm. and Audrey Hewson, Mrs. Florence Balsey.

OTTAWA STUDIES

properties abutting the lake had been worn away and the foundation of their homes endangered. In many cases, the necessary projects would over-reach the financial ability of municipalities.

John R. MacNicol (P.C., Toronto-Davenport) said the erosion had resulted from the diversion of water in Northern Ontario at a rate of 5,200 cubic feet a second from the Albany River watershed to the St. Lawrence River watershed to make up for 10,000 cubic feet a second

which was being diverted at Chicago.

However, Chicago since had reduced its diversion to 1,500 cubic feet, with the result that the general levels of Lake Ontario, Lake Erie and Lake Huron were not far short of their highest average.

Mr. MacNicol said he believed property owners along the shores of the Great Lakes had an "absolute claim" to see the Ontario Government and the Federal Government for the destruction of property as a result of the diversion.

William Irv... (P.C., Carleton Place) said the Government should assume responsibility for erosion generally, because in the near future it would become one of Canada's greatest problems.

GOES TO ENGLAND

Since his return home in August, 1945, he has taken the Department of Veterans Affairs electrical course which he has just completed. His idea in going to London for a year of 18 months is that he will receive a better knowledge of electrical work from a practical standpoint in that time than he could secure here at home and hence on his return he better fitted to operate his own business.

FIRE THREATENS NEWSPRINT

Thanks to her forest resources, Canada produces as much newsprint as all other countries combined. Fire is the greatest enemy of this important industry. Prevention of forest fires checks needless destruction.

The pioneers had to hatter to secure many things. In those days the government didn't print money by the bale.

CANADA UNLIMITED - The Formative Years

The Prospector—after a painting by R. York Wilson, O.S.A.

Out of the Lonely North

UNTIL THE THIRTIES, the barren bleakness of the Arctic North was Canada's unknown. Suddenly it leaped into the news. Out of the lonely North there came word of discovery. The searching picks of the prospector had chipped Pitchblende from the rugged face of the rock. A new major source of material for Radium, for U-235, for Plutonium, had been found.

Because of this discovery, the beneficent ministrations of radium have been made available to increased thousands of suffering people at such a price that its curative powers could be used for rich and poor alike. Then, too, Canada, possessing quantities of Uranium, is assured of a leading position in the development of all the benefits of this new power which are indicated but as yet unproved.

Canadian Government in trust for the Canadian people. Wisely used, this great new asset can bring us measurably closer to that future greatness and security we call Canada Unlimited.

And just as the Victory Bonds we bought during the war helped, amongst other things, to develop atomic energy for war purposes, the Bonds we hold will provide for the utilization of the fruits of Canadian discovery in a better, finer, world.

THE MIXING BOWL
 BY *Ann Allan*
 HYPO HOME ECONOMIST

Hello Homemakers! August and it's time to get rid of those prevalent pests! Flies and mosquitoes in particular combine to make life miserable for not only those on holidays, but also for those who toil and sweat at home in the summer heat.

Some of the informative pamphlets issued by well-known manufacturers of insecticides point out the safe use of their products. The base of these new mixtures is a chemical with a long name we glibly call D.D.T.

There is a D.D.T. bomb on the market now, a petroleum mixture in a container, which if put on in a closed room for 7 seconds will kill the insects immediately.

In powder form, the D.D.T. insecticide is very effective too. However, it takes time to set and is generally combined with pyrethrum or some other vehicle. This mixture should be put in cracks behind cupboards and places where the cat or other pets will not eat it.

The manufacturer of a paint insect killer recommends the product for 2 or 3 months. You spray it on surfaces or brush it on painted walls and screens.

These pest destroyers are not injurious to use. However, for the best effect do one room at a time. Cover any food, put the baby in another room, remove the house plants and the canary. Close the room for a minute after you've used the D.D.T. By the way, don't use the D.D.T. bare spray for the job in the house. It usually contains kerosene or an oil and may leave spots on fabrics.

Follow directions on the labels. Use an insecticide and you will enjoy more leisure hours having rid the house of pesky flies.

Do not encourage flies. Store food in closed containers in a cool place. Keep dishes washed after using. Keep doors closed and windows open and screened.

TAKE A TIP

1. Place stuffed peppers in a muffin tin while baking to keep them in shape.

2. Fresh peas stay green and will not shrink if a couple of lettuce leaves are put on top of them while cooking.

3. Meat loaf is cooked more quickly if you bake the mixture in a tube cake pan.

4. A piece of rayon thread is best for cutting angel food or sponge cake.

THE QUESTION BOX

Mrs. B. R. asks: Recipe for Meringue shells.

2 egg whites, 1/4 tsp. cream tartar, 1/2 cup sugar, 1/2 tsp. vanilla, dash of salt.

Beat egg whites, cream of tartar and salt until frothy but not dry. Continue beating while sugar is being added, about 10 min. at a time.

Beat until stiff. Fold in vanilla. Drop on baking sheet, covered with heavy ungreased paper, or press through pastry tube on to paper. Bake in 275 deg. electric oven 40-60 mins. Remove from paper at once. Make 3 dozen small meringues. For colour variation: Before baking separate mixture into several parts and add different vegetable colourings.

Mrs. S. T. suggests:

Toasted Cheese Dreams
 1/2 lb. sharp cheese, grated, 1 1/2 tbsps. melted butter, 1 egg, beaten, 1 1/2 tbsps. cream.

Combine the above ingredients and mix thoroughly. Remove crusts from one loaf of bread, and slice lengthwise. Spread slices with the mixture, and then roll and chill in electric refrigerator. When ready to serve, slice about 1/4" slices, place on rack and toast under broiler or if desired serve plain.

Cashew Cookies
 3/4 tbsps. shortening, 1/4 cup sugar, 1 egg, well beaten, 2 tbsps. milk, Maraschino cherries, 1 cup sifted flour, 2 tbsps. baking powder, 1/4 tsp. salt, 1/2 cup cooking cashews (chopped).

Cream shortening, add sugar and cream until fluffy. Sift flour, salt and baking powder together. Add dry ingredients, milk and beaten egg. Add chopped nuts to dough. Drop from teaspoon onto greased baking sheet, top with slice of cherry and bake in 350 degree electric oven 15-20 mins. Makes three dozen.

Anne Allan invites you to write to her c/o The Grimsby Independent. Send in your suggestion on homemaking problems and watch this column for replies.

WOODSMEN EAT WELL

Canada's pulp and paper industry pays annually \$1 million for food for its wood workers, who consume 8,000 tons of meat, 11,000 tons of potatoes, 7,500 tons of flour and 500 tons of cheese.

Some men yearn for a beauty spot while others prefer to go to a spot with a little beauty.

Use PARMONE FOR GREATER PROFITS

"THREE small bottles of PARMONE made me \$150 on my Snow apples by holding them longer on the trees. There was a big increase in size and improvement in colour."

That's what one grower writes... one of the many who have learned how PARMONE, the C-I-L hormone spray, prevents or greatly reduces pre-harvest drop.

Fruit clings longer

Apples (and pears) cling longer and more firmly to the trees. Fruit shows improved colour, quality and size. PARMONE does not delay normal ripening process. Consequently fruit should be picked at the proper stage of maturity.

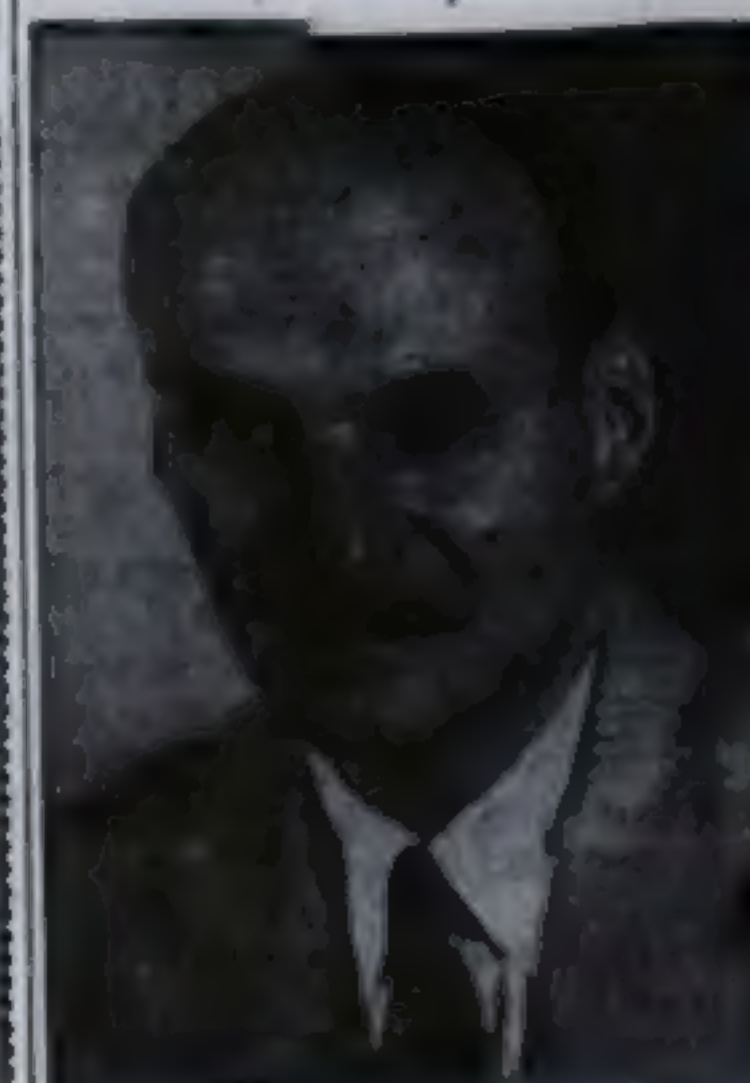

Economical

Just four ounces of PARMONE makes 100 gallons of spray, and a single spraying is usually sufficient. Insure a bigger crop, larger profits, by using PARMONE at the first sign of early dropping.

Perishable Traffic Experts: Oscar J. Donaghy, (top), widely known in Canada's fruit growing areas and in the egg and meat packing trade through supplying the refrigerator cars by which these perishables move to market, has been made car accountant for the system at Montreal by the Canadian Pacific Railway. He will be succeeded as chief supervisor of perishable traffic and weighing, with headquarters in Montreal, by Percy E. Grougham, (bottom), chief passenger car distributor for the system for the past nine years.

THE TWO SEAS

(By Bruce Barton, in Reader's Digest.)

There are two seas in Palestine. One is fresh, and fish are in it. Splashes of green adorn its banks. Trees spread their branches over it, and stretch out their thirsty roots to sip of its healing waters. Along its shores the children play, as children played when He was there. He loved it. He could look across its silver surface when He spoke His parables. And on a rolling plain not far away He fed five thousand people.

The river Jordan makes this sea with sparkling water from the hills. Men build their houses near to it, and birds their nests; and every kind of life is happier because it is there.

The river Jordan flows on south into another sea.

Here is no splash of fish, no fluttering leaf, no song of birds, no children's laughter. Travelers choose another route, unless on urgent business. The air hangs heavy above its water, and neither man nor beast nor fowl will drink.

What makes this mighty difference in these neighbor seas?

Not the river Jordan. It empties the same good water into both. Not the soil in which they lie, not the country round about.

This is the difference. The Sea of Galilee receives but does not keep the Jordan. For every drop that flows into it another drop flows out.

The other sea is shrewder, hoarding its income jealously.

It will not be tempted into any generous impulse. Every drop it gets it keeps.

The Sea of Galilee gives and lives. This other sea gives nothing. It is named The Dead.

There are two seas in Palestine. There are two kinds of people in the world.

Movie Star Has To Change Bank

A dog has robbed movie-goers of an extra view of one of Hollywood's most celebrated pairs of legs — more specifically those belonging to lovely Linda Darnell, who is currently starred in 20th who ry-Fox's "Fallen Angel," op-Century-Fing at the Roxy tonight ending showlight, and Friday nig Linda tumbling. The pup sent her home when it down the stairs of her home when he tripped her on the day she was to do a scene in which Dana Andrews catches her slipping a stolen dollar bill into the top of her stockings.

With her right ankle sprained and still tightly bandaged Producer-Director Otto Preminger had to change the scene so that she slips the paper money into the bodice of her waitress' uniform instead of her stocking.

The average pedestrian is one jump ahead of the undertaker.

BREVITIES

EVENTS and TOPICS of the WEEK in TABLOID

County Council meets next Tuesday.

Fifty years ago, Aug. 6th, 1896, peaches on Hamilton market were 25 to 30 cents a 11 quart basket; tomatoes 30 cents a basket.

Prize winners of the drawings conducted at the Firemen's Carnival were W. York and Stanley Lemsey, both of Grimsby.

The death occurred in St. Catharines on Saturday of Peter Kolin for some years a resident of Grimsby but for the past five years in the meat packing business in St. Catharines.

Firemen's Carnival last week was the biggest and most successful, in every way, that the fire ladders have ever staged and as a result the boys will have a tidy sum for their fund.

Traffic accidents are getting so numerous in St. Catharines that the city council is going to buy a crash ambulance from the R.C.A.F. At present the private ambulances in the city are unable to cope with the situation.

Thirty kiddies at the Beach were happy last week when Councilor Sam Bartlett secured 30 of the pheasants being released for them to set free. As each bird was liberated the kids made the wish "We hope you never get shot."

Property transfers in St. Catharines for the month of July totalled 126, of which 14 were family transactions at \$1 each. The remaining 112 transfers were for a consideration of \$311,230. The transfers were reported by the city Assessment Department.

Niagara Falls is enjoying one of the most prosperous building booms it has ever had. Permits issued in the Falls, and suburban Stamford Township during the first seven months of this year totalled more than a million dollars. Stamford's permits totalled \$548,366 and the city permits amounted to \$374,800.

Eleven applications for old age pension were dealt with last Thursday at the monthly meeting of the Lincoln County Pensions Board. The Board recommended six, rejected two and laid three over for further investigation. Present at the meeting yesterday were: George Hedley, chairman of the Board, George Montgomery, Mrs. W. H. Groce, Miss Trembley and Miss Davidson, secretary.

Strikes by the Canadian Seamen's Union has greatly affected the traffic in the Welland Ship Canal. Volume of freight through the canal has declined to 808,961 tons from 1,708,347 in June 1945. From 244,818 tons, wheat has sunk to 95,137 tons, gasoline from 113,774 to 64,841 and petroleum and other oils from 190,478 to 143,158. Soft coal from 435,972 tons has decreased to 323,645, iron ore from 179,573 to 33,522 and pulpwood from 70,818 to 33,720.

GOOD FORESTRY PRACTICE

It is good forest practice to cut mature timber stands. Such stands show little new growth and disease reduces the value of the timber.

Some men are successful money lenders, while others don't insist upon proper security.

CONTINUATIONS From Page One

MOULDING SHOP

They also will be finished until such time as supplies can be obtained and the plant opened up.

Metal Craft Co. will be able to operate for some considerable period of time as a great amount of their steel comes from the United States.

Basket factories are getting pretty near the end of their wire supply and unless help comes from some direction it is only a matter of days until they will be closed down.

H.M.C.S. LIONS CLUB

mounted on very large steel air chambers. In war time it was capable of carrying 40 full sized men in the middle of the Atlantic.

At the present time it has more than 100 kids on it at one time. Photographs of the launching and of the raft were taken. It was a tough job to get the huge craft down the bank into the water. It will be a still greater problem to get it back into drydock for the winter.

TOWN COUNCIL

are getting 50 cents an hour for a 44 hour week, or \$22 a week if they have a full week, which they do not always have owing to weather conditions.

Council must have concurred to some extent with the remarks of "the Little Mayor" for Chivers and Price sponsored a motion to give the men an increase of 10 cents an hour and pay them full time for all legal holidays, but the motion was laid over until the September meeting owing to the absence of Councilor Inghart, chairman of Board of Works, who is away on vacation.

Dr. J. M. Mather, Medical Officer of Health of Lincoln Health Unit, which has jurisdiction over town health affairs, sent two communications to council. First he stated that the Sanitary Inspector acting on a complaint had visited the home of Howard Young, Main east, and discovered that he had in the neighborhood of 2,000 chickens and a large number of turkeys on a town lot. The M.O.H. requested that a town bylaw be passed that would prohibit chickens raising on a town lot on a commercial scale. Councilor Bonham stated that the poultry was already being moved away from the property.

Secondly, Dr. Mather stated that the garbage condition in connection with the local restaurants were very bad indeed and asked that some remedy be found to eliminate the bad situation. Council did not believe that it was up to them to remove the garbage complained of, that being a matter for the M.O.H., the Sanitary Inspector, and the restaurants.

Bell Telephone Co., in the very near future will make certain changes in their system in the western section of the district. Bellflet township council asked the co-operation of Grimsby council in having these changes made. Under the new system a telephone exchange will be established in Stoney Creek. Winona central will still remain. The district will be divided with Deritt's Road being the dividing line. At present Grimsby citizens can talk to any person east of Hamilton city limits without a toll charge. Under the new set-up they will pay a toll charge on all calls that will be west of Deritt's Road, or on Stoney Creek central.

Mayor Bull reported that from information secured from water pipe and sewer pipe firms the town will be unable to secure even the smallest supply of pipe for water mains or sewers until 1947, and possibly well on into that year. Councilor Lewis stated that he was unable to secure any sewer tile for much needed drainage work in the cemetery. As a result council will be unable to go ahead with the sewer projects on Alchison survey and Gibson avenue and also the water main on Alchison survey.

County rate this year will cost the town coffers the sum of \$17,239 as against \$12,532 in 1945. An increase of practically 35.000.

Mayor Bull spoke feelingly of the demise of Mrs. Beattie K. Moore and upon her fine life and work in Grimsby. Council marked her passing observing a moment's silence. Clerk Bourne was instructed to write a letter of condolence to the family.

Mr. W. Crosby, appeared before council and offered to purchase a

strip of land on Main street, 100 feet west from the Forty bridge as deep as possible. This is where the Canadian Legion made a north fill last winter when they contemplated erecting a hall thereon. Legion have returned this property to council.

Council believed this would be a bad location for a tire and vulcanizing business.

Mayor Bull reported that he had granted the privileges for one day to two strikebound men from Hamilton to pick over the town dump for bottles, tin, etc.

Councilor Bonham did not agree with the principle of able bodied men prowling around dumps instead of being at their rightful jobs. Other councillors concurred with him and the privileges will not be further extended.

Tax Collector Jewson reported that in July tax collections arrears and current totalled \$3,404, as against \$2,911 in 1945. From January 1st to July 31st total collections amounted to \$43,427, as against \$36,130 in 1945. Current taxes collected totalled \$40,744.

Chief of Police Turner in his report for July stated that there had been one assault charge, fined \$25; nine traffic charges, fined \$2 each; complaints investigated, 14; dog tax collected, \$28.

A building permit was granted to Wm. E. Thompson for the erection of a building of cement blocks, steel, cut stone and rug brick, 36 feet by 78 feet at a cost of \$10,000, to be used as a dairy and milk bar.

Council will hold a special meeting to deal with the question of reconstructing the sewage disposal plant.

Several routine bylaws were read the necessary three times and passed.

Joint Fire Committee accounts for \$43.07 were ordered paid.

Relief accounts for July totalled \$30.

General accounts for \$2021 were ordered paid.

HEALTH SERVICES

All the services required to maintain humanity in a state of health actually exist in most countries, if people would only use them. This is the declaration of an official of the Department of National Health and Welfare, Ottawa, in answer to the charge that modern society spends more on scientific rearing of livestock than on human beings. "Everyone must obey the basic laws of sanitation, nutrition and general hygiene," said the Ottawa authority, "before we can banish human ailments, but all the facilities exist at the present time, for fighting ill-health, if the people will only support and use these services."

There is no substitute for **QUALITY** at your Dominion store

Here, at your DOMINION Stores, quality is no mere slogan. It is a guide in all our plans for merchandising. It is the underlying principle—the fundamental policy which directs every operation which must—and DOES—end in the complete satisfaction of our customers. There is, indeed, no substitute for quality. YOU know it... and we believe it is so important that we back every single commodity with DOMINION'S 100% Guarantee that you'll be completely satisfied with its quality and value.

Values Effective Thursday, Friday and Saturday, August 15th, 16th and 17th.
